

# Patricio Toledo

FULLSTACK SOFTWARE ENGINEER | REACT, NEXT.JS, NODE.JS | REMOTE-FIRST DEVELOPER

✉ contact@patriciotoledo.ar | ☎ +542216790804 | 📍 Buenos Aires, Argentina | 🌐 patriciotoledo.ar

## Work Experience

### Bayview Asset Management

Remote

FRONTEND ENGINEER

Apr 2022 – Present

- Achieved 45% performance improvement by optimizing service initialization and implementing performance monitoring
- Built comprehensive CI/CD pipeline with automated testing, PR performance reporting, and Lighthouse integration
- Designed custom web worker proxy for local development enabling persistent mock server functionality
- Implemented A/B testing framework with feature flags and analytics integration (Mixpanel, Statsig)
- Led theming architecture redesign supporting authenticated/unauthenticated user experiences
- Contributed to frontend migration from Bootstrap to Tailwind CSS improving maintainability
- Enhanced development workflows with automated performance tracking and deployment reliability

### Lease End

Remote

FULLSTACK DEVELOPER

Nov 2020 – Apr 2022

- Built internal lease management platform using Next.js and Node.js for operations team
- Developed advanced filtering and search capabilities for lease tracking
- Implemented in-app notifications and basic analytics dashboard
- Integrated GraphQL with Apollo Client for efficient data fetching and state management
- Set up CI/CD pipelines with GitHub Actions for automated deployments
- Enhanced user workflows reducing manual operations overhead

### Univision

Remote

SOFTWARE ENGINEER

Feb 2018 – Nov 2020

- Built key features for Uforia streaming platform serving 5M+ users
- Implemented Android Auto support and custom push notifications (iOS/Android)
- Built CMS from scratch (Angular + Java Spring) for content management
- Developed in-house feature flag system eliminating external dependencies
- Reduced app loading times by 25% by optimizing external API calls
- Fixed critical bugs and improved overall user experience
- Collaborated with product and QA teams delivering on tight deadlines

## Skills

**Languages & Frameworks:** JavaScript, TypeScript, React, Next.js, Node.js, Express, HTML5, CSS3, Tailwind CSS, Rust  
**Databases & APIs:** PostgreSQL, MongoDB, SQL, GraphQL, REST APIs  
**DevOps & Cloud:** Docker, CI/CD, GitHub Actions, AWS, Google Cloud Platform (GCP), Linux, Git  
**Testing:** Jest, Cypress, Playwright, Unit Testing, Integration Testing, End-to-End Testing  
**Workflow & Methodologies:** Agile, Scrum, Version Control, Code Review

## Education

### Universidad Tecnológica Nacional - Facultad Regional La Plata

La Plata, Buenos Aires, Argentina

BACHELOR'S DEGREE IN SYSTEMS ENGINEERING - COMPUTER SCIENCE & SOFTWARE ENGINEERING

2015 – 2020

## Projects

### Sentrio

React, Cybersecurity,  
Styled-components, Data  
Visualization, Banking, Fullstack

CYBERSECURITY DASHBOARD FOR LATAM BANKS PROVIDING VISIBILITY INTO VULNERABILITIES, OPEN PORTS, AND RISK METRICS.
